TUNE - "JOHN BROWN'S BODY".

Equal Pay is coming as a right and not a boon,
You need not think it's nonsense, and we're crying for the moon,
We mean to right injustice so you'd better give it soon,
The fight is going on.

We've won the vote for women, equal pay we must win, too.
In breaking down tradition, we have much hard work to do,
How long the battle wages, will depend on me and you,
The fight is going on.

Till everyone has justice and equality is won,
And men and women side by side stand equal in the sun,
We will not cease our labours till this work is surely done,
The fight is going on.

Chorus. Pledge yourselves to fight for justice;
The fight is going on.
